

RVF - External Wall Extract Fan

- Speed-controllable
- For mounting on external walls
- Useful where internal space is limited
- Powerful extract performance with low noise

The RVF models are exhaust-air fans for installation on external walls. The unit consists of an impeller with backward-curved blades and a casing in galvanised sheet steel with a white powder-paint coating. All ambient noise created by the fan is kept outside the building if it is installed on an external wall.

Technical Data

		RVF 100M	RVF 100XL
Maximum Airflow	l/s	50l/s	80l/s
	m ³ /hr	200m ³ /hr	280m ³ /hr
Spigot Size		100 mm (4")	100 mm (4")
dBA @ 10m		26	37
Voltage		230-1-50 Input	
Amps		0.16	0.26
Power W		28	60
Speed rpm		2489	2433
Speed Controller		REE 1	REE 1
Weight kg		4	5
Max temp of transported air (C)		70 deg C	70 deg C
